Scheme of Assessment

Description		Weightage
Section A: Reading ^{to understand} Comprehension		20 Marks
1.	<u>One unseen passage</u> ((<u>400-500</u> words)) for <u>note-making</u> (<u>5 marks</u>), <u>summarizing</u> (<u>4 marks</u>) and providing a title (<u>1 mark</u>) to the summary.	10 Marks $5+4+1=10$
2.	One unseen prose passage (400-500 words) followed by ten <u>objective type questions</u> including MCQ's, fill-ups, true/false, yes/no to assess comprehension, interpretation and inference.	$1 \times 10 = 10$ Marks

READING COMPREHENSION

NOTE MAKING

- Note making is the process of writing down the important points from an article, a lecture, a passage, lecture, or text in a systematic and brief form.
- The main purpose of note making is to filter the important information and retain it from the available information.
- Three elements in sequential order must be there when note-making comes in any exam.

1. **Notes**
2. **Details of the Abbreviations and Symbols used in the notes**
3. **Summary of the notes in not for than 100 words.**

Let's understand the first element, how to write a Note.

First comes, the Heading or Title of the notes, choose a title in such a way that it identifies or conveys the main idea of the article.

Now, this article will be divided into various sub-section, or we can say the subordinate division of the main topic.

These are called Sub-Headings. These sub-headings would show the details which are called sub-points and sub-sub points

NOTE MAKING

Title: _____

1. Main point
 - 1.1. Sub point
 - 1.2. Sub point
 - 1.3. Sub point
 - 1.4. Sub point

2. Main point
 - 2.1. Sub point
 - 2.2. Sub point
 - 2.3. Sub point

3. Main point
 - 3.1. Sub-point
 - 3.2. Sub point

4. Main point
 - 4.1. Sub point
 - 4.2. Sub point.

1. Main point
 - 1.1. Sub point
 - 1.1.1. Sub-sub-point

NOTE MAKING

- After the note is finished, we need to mention the list of abbreviations and symbols we used while writing the note.
- The third and the last comes the summary of the note.
- This summary of a passage should be lucid and clear. It should include all essential points so that anyone on reading it may be able to grasp the main ideas of the given passage.

For Example

A decorative, ornate frame made of a golden-brown material, featuring elegant scrollwork and curves. The text 'SECTRION - A' is centered within this frame.

SECTRION - A

Reading Comprehension

1. Read the following passage make notes (5 marks), write a summary (4 marks) give a suitable title (1 mark).

Physical activity plays an important role in maintaining a healthy body and mind. In modern life, people often lead a sedentary life-style due to long hours of study, office work, and excessive use of electronic devices. This lack of movement has resulted in various health problems, including obesity, poor posture, and reduced stamina.

Regular physical activity such as walking, jogging, cycling, or playing sports helps improve cardiovascular health and strengthens muscles and bones. It also increases flexibility and boosts immunity. Apart from physical benefits, exercise has a positive impact on mental health. It reduces stress, anxiety, and depression by releasing hormones that improve mood and concentration.

Reading Comprehension

For students, physical activity is especially important. It improves focus, memory, and academic performance. Students who participate in sports and outdoor activities develop teamwork, leadership qualities, and discipline. Moreover, physical fitness builds self-confidence and helps in maintaining emotional balance during stressful situations.

Despite its benefits, many people neglect physical activity due to lack of time or motivation. However, even small changes like using stairs instead of lifts, walking short distances, or practicing Yoga at home can make a significant difference. Schools, families, and communities must encourage active life-styles by providing proper facilities and awareness.

In conclusion, physical activity is not a luxury but a necessity. Adopting an active life-style ensures long-term health, mental well-being, and overall quality of life for individuals of all age groups.

ANSWER:

Notes of the Passage:

Title: Physical Activity: A Key to Healthy Living

1. Importance of Physical Activity → Main point

- 1.1. Maintains healthy body & mind
- 1.2. Prevents sedentary lifestyle
- 1.3. Prevents sedentary lifestyle
- 1.4. Reduces obesity, poor posture & low stamina

→ Sub-points

2. Physical Benefits → Main point

- 2.1. Improves cardiovascular health
- 2.2. Strengthens muscles & bones
- 2.3. Increases flexibility & immunity

→ Sub-points

3. Mental & Educational Benefits → Main

- 3.1. Reduces stress, anxiety & depression
- 3.2. Improves mood & concentration
- 3.3. Enhances focus, memory & academic performance

→ Sub-points

4. **Personality Development** ➔

- 4.1. Develops teamwork & leadership
- 4.2. Builds discipline & self-confidence
- 4.3. Maintains emotional balance

5. **Promoting Active Lifestyle**

- 5.1. Small changes: stairs, walking, Yoga
- 5.2. Schools, families & communities should encourage fitness
- 5.3. Physical activity is essential for long-term well-being

SUMMARY:

Physical Activity: A Key to Healthy Living

Physical activity is essential for maintaining both physical and mental health. It prevents problems caused by inactive lifestyles, such as obesity and poor stamina, while improving heart health, strength, flexibility, and immunity. Exercise also reduces stress and improves concentration and mood. For students, it enhances academic performance and develops leadership, teamwork, discipline, and self-confidence. Even simple activities like walking, climbing stairs, and practicing yoga can improve health. Therefore, everyone should adopt an active lifestyle to ensure long-term fitness and overall well-being.

QUESTION

Homework

1. **Read the following passage. Make notes (5 marks) and write a summary (4 marks) and give it suitable title (1 marks):**

The other day we heard someone smilingly refer to poets as dreamers. No, it is accurate to refer to poets as dreamers but it is not discerning to infer as this person did, that the dreams of poets are just as practical as people who build bridges, or look into microscopes are just as close to reality and truth. Where they differ from the logician and the scientist is in the temporal sense alone; they are ahead of their time, whereas logicians and scientists are abreast of their time. We must not be superficial that we fail to discern the practicableness of dreams. Dreams are the sunrise streamers heraiding a new day of scientific progress another forward surge. Every forward step man takes in any field of life is first taken along the dreaming paths of imaginations. Robert Foulton did not discover his steam boat with full steam up, straining at a hawser at some Hudson river dock, first he dreamed the steam boat and then scientific wisdom converted a picture in the mind into a reality of steel and wood. It is how most of the inventions and discoveries first cropped-up as a dream in the mind and then shaped into reality.

The automobile was not dug out of the ground like a nugget of gold; first men dreamed the automobile and afterwards, the practical minded engineers caught up with what had been created by winging fantasy. He who looks deeply with a seeing eye into the poetry of yesterday finds there all-the cold scientific magic of today and much we shall not enjoy until some tomorrow. If the poet does not dream so clearly that blue print of this vision can immediately be drawn and the practical conversions immediately effected, he must not for that reason be smiled upon as merely the mental host for a sort of harmless madness.

QUESTION

For the poet, like the engineer, is a specialist. His being turned to the life to tomorrow, cannot be turned simultaneously to the life of today To the scientist he says, "Here, I give you a flash of the future. The wise scientist thanks him and takes that flash of the future and makes it over into the fibre of today. So in a way poets and researchers and scientists are complementary to each other: One weaves dreams with threads of gold and silver fascinating people to carve for it and the scientists pick up the dreamy vision and brings out the stuff in reality to the utmost fun, joy and satisfaction of many.

ANSWER:

Notes of the Passage:

Title: Dreams — The Foundation of Progress

1. Poets as Dreamers

- 1.1. Poets are dreamers but not impractical.
- 1.2. Their dreams are linked with reality.
- 1.3. Poets are ahead of their time.
- 1.4. Scientists are abreast of their time.

2. Value of Dreams

- 2.1. Dreams lead to scientific and social progress.
- 2.2. Every great achievement begins as a dream.
- 2.3. Dreams are sunrise streamers heralding a new day.

3. Examples of Dreams Turned Reality

- 3.1. Robert Foulton dreamed of the steamboat before making it.
- 3.2. Automobile first imagined, then built by engineers.
- 3.3. Most inventions first appear in imagination.

4. Poets and Scientists

- 4.1. Poets foresee the future.
- 4.2. Scientists convert poetic visions into practical reality.
- 4.3. Both are specialists in their own fields.

5. Complementary Roles

- 5.1. Poets and scientists complement each other.
- 5.2. Poets weave golden dreams of imagination.
- 5.3. Scientists bring those dreams to life for human joy and progress.

SUMMARY:

Dreams — The Foundation of Progress

Poets are dreamers whose visions are not mere fantasies but the seeds of progress. They are ahead of their time, while scientists turn those dreams into reality. Every invention or discovery, like the steamboat or automobile, began as a dream in someone's imagination. Poets foresee the future and inspire scientists to act. Both are essential for human advancement — one imagines, and the other materializes — together shaping a better world.

QUESTION

Read the passage carefully and answer the questions that follow:

[10 × 1 = 10]

Mental health is as important as physical health, yet it is often neglected in society. Mental health refers to a person's emotional, psychological, and social well being. It affects how individuals think, feel, and act in daily life. Good mental health helps people cope with stress, make decisions, and maintain healthy relationships.

In today's competitive world, students face academic pressure, expectations, and uncertainty about the future. Continuous stress can lead to anxiety, depression, and lack of motivation. Poor mental health affects concentration, memory, and overall performance. Unfortunately, many people hesitate to talk about mental health issues due to stigma and fear of judgment.

Mental health awareness helps people recognize symptoms early and seek timely support. Simple practices such as regular exercise, proper sleep, balanced diet, and relaxation techniques contribute to mental well-being. Sharing problems with trusted friends, family members, or counsellors reduces emotional burden.

Educational institutions play a vital role in promoting mental health awareness. Schools and colleges can organize workshops, counselling sessions, and awareness programs. Teachers should create a supportive environment where students feel safe to express themselves. Families must encourage open communication and emotional understanding.

Governments and communities should work together to provide accessible mental health services. Public campaigns can help reduce stigma and spread awareness. When mental health is given proper importance, individuals become more confident, productive, and emotionally balanced.

In conclusion, mental health awareness is essential for a healthy society. Promoting awareness, support, and acceptance ensures overall well-being and a better quality of life for everyone.

QUESTION

What is meant by mental health according to the passage?

QUESTION

Mention any one effect of poor mental health on students.

2

QUESTION

Name any one simple practice that helps improve mental well-being.

QUESTION

How can educational institutions promote mental health awareness?

→ by organising programmes and counselling sessions.

QUESTION

Mental health affects which of the following aspects of a person's life?

- 1 Only physical strength
- 2 Only academic performance
- 3 Emotional, psychological, and social well-being
- 4 Financial stability

QUESTION

The word "competitive" in the sentence:

"In today's competitive world, students face academic pressure." Is

1 a Noun

2 a Verb

3 an Adjective ~~///~~

4 a conjunction

QUESTION

Give the ^{opposite} antonym of "stress"

calmness, comfort, peace,

QUESTION

Find a word in the passage that is a synonym of "awareness".

QUESTION

Sharing problems with friends, family, or counsellors can reduce emotional burden.

True / false

QUESTION

Continuous stress can lead to*anxiety*....., depression, and lack of motivation.

QUESTION

Home work .

Read the passage carefully and answer the questions that follow:

Although, tigers are in the news, many of them are still webbed into man-animal conflicts. There is only one way to stop poaching and that is to ensure that the poor tribals, who hunt the tigers, are able to make living by other means. Once poaching stops, illegal trade in tiger skin, bones and other parts will become impossible for the rich mafia that runs the racket in the world's smuggling capitals. Also, tigers are losing their habitat because people are destroying their forests from felling trees for firewood or timber to large-scale destruction for mining, industries, roads or buildings. There should be strict policies that forbid giving away lush tiger forests in the name of development.

But, what about villagers who depend upon forests? Today, most of us may live in big cities, but even these big cities were once built by cutting down forests. To protect our forests, we must help these villagers earn a decent livelihood. India's tiger tourism should help most of them get jobs around the forests.

QUESTION

In India, forests are the source of 300 rivers and perennial streams. Forest cover is essential for attracting rainfall and preventing soil erosion. If forests are destroyed, it will affect the food we grow and the water we drink. Therefore, protecting forests must be a priority. Finally, we have to accept that wild animals do not understand the boundaries, we set for them.

Cats are territorial and as they grow up, need their own unique space. So if there are tigers in a forest, they will move out every now and then to create their own territories. We have to build and connect our forests for the such wandering tigers. Otherwise, tigers straying into villages will continue to be killed out of fear.

All of this is not as difficult as it may sound. Compared to the west, India's population density has always been very high. We have traditionally shared space with many species of wild carnivores in India, and only one of them-the Cheetah-is so far extinct mainly for this reason. In the west almost all big carnivores species are lost. Tigers survived in India because of our traditional tolerance. Tigers still have a great chance if we live up to that tradition.

QUESTION

Why are wild animals like tigers losing their habitat?

QUESTION

To protect our forests, we must help the villagers

(Complete it)

QUESTION

Which word in the passage means to kill animals illegally.

QUESTION

Which animal in India is almost extinct now?

1

2

3

4

QUESTION

Most animals like Tiger straying into villages are killed out of:

- 1 Revenge
- 2 Sympathy
- 3 Fear
- 4 Fun

QUESTION

What does it mean we say, "Tigers are territorial"?

QUESTION

What measures should be taken to stoop poaching?

QUESTION

What will happen if forests are destroyed?

QUESTION

..... in a 'decent livelihood' the word 'decent' is a:

- 1 Noun
- 2 Verb
- 3 Adjective
- 4 Adverb

QUESTION

Forest cover is essential for rainfalls and preventing soil erosion.

TRUE

FALSE

20 marks completed.
