Water Sustain life

Issued by: Delhi Jal Board

QUESTION

You often feel unhappy when you see people wasting water ruthlessly. Draft a poster telling people, why and how to save water for future life on this planet. **[30-50 words]**

Save Water, Save Life

Water is Life — Don't Waste It!
Every drop of water is precious.
Wasting water today means no water tomorrow!

Why We Must Save Water:

Water is needed for drinking, farming, and daily use
Fresh water is limited — we can't live without it
Wasting water harms plants, animals, and the planet

How You Can Help:

- 💧 Turn off taps when not in use
- 💧 Use a bucket instead of a shower
- 💧 Reuse water where possible (e.g., watering plants)

Stop Water Wastage

- 💧 Fix leaking pipes immediately
- 💧 Don't let the water run while brushing teeth

Start Water Saving

Let's act today for a better tomorrow!

Subject: Frequent power failures fluctuations and low voltage in our area

Sir

I regret to inform your honour about the power failures, fluctuations and low voltage problem for the last about three months in the XYZ area of this city.

In these hot months, it becomes unbearable to do without electric power for even a few minutes. So you can imagine the lot of people when they have to go without it for the whole day and night. And there is a power failure every day for long hours in the evening. Due to this people have to suffer a lot regarding their work. There are also incidents of losses of electric appliances due to fluctuations and low voltage. When enquiries are made from the nearest station, no satisfactory answer is given. Residents are put off with vague replies. The officials concerned are also very rude and indifferent to the difficulty of the residents. Poor students are the worst sufferers. The examinations are drawing near. Without proper power supply, it becomes almost impossible for them to study. It is requested that continuous power supply should be ensured so that the residents have not to suffer.

Yours faithfully

QUESTION

Due to the globalization of food industry and fast food culture, traditional healthy diets are increasingly being replaced by unhealthy junk food containing artificial additives and preservative chemicals. Write an article in 150–200 words for a national daily on the need for inculcating healthy dietary habits.

Need to Inculcate Healthy Dietary Habits

BY: ABC

Need To Inculcate Healthy Dietary Habits

By: ABC

Due to globalisation and the advent of fast food culture, traditional healthy diets have been replaced by unhealthy junk food that has no nutritional value. Children and even adults have become quite fond of this junk food essentially because it is palatable and caters well to their taste buds. Though junk food does not come with a statutory warning, it is , actually harmful for our health if we eat it on a regular basis as it contains artificial additives and chemical preservatives. Hence the need arises for inculcating healthy dietary habits. I feel childhood is the best stage to inculcate good food habits. Through constant reinforcement and an emphasis on healthy eating choices at home parents can ensure that their kids continue to eat healthy even when they are away from home.

Parents should remember that kids learn their eating habits from them so they should lead by example and eat healthy themselves. This will encourage their kids to follow in their footsteps. Children's initial refusal to eat healthy food should not discourage the parents. Repeated exposure to healthy foods like fresh fruits and vegetables, nuts, milk etc. will ensure that the kids might want to try it out at some point. So, constant encouragement is needed to make them try out healthy food but do not force anything. Aim to make good nutrition a way of life than a rule and healthy eating habits will come naturally and not something that is being enforced.

QUESTION

Travel is an important part of a man's education. It enables a person to learn manners, customs, languages and history of different people and places and also widens the circle of one's acquaintances. Write an article in 150–200 words on (“Travel, an Important Source of Education”).

Travel – An Important Source Of Education

By: ABC

To travel is to discover. If not necessary, travel is a very important aspect of education, an experience to learn on personal levels with hands-on experience. When people travel to a new place they absorb and remember information faster and retain it longer just by experiencing it themselves. Travelling to other parts of the country provides the opportunity to see different cultures practising their everyday lives. It also enables a person to learn the manners, customs, languages and history of different people and places and widens the circle of one's acquaintances. While travelling to each new place gives us a different experience, all of these travels will add up to a worldly view that instils a feeling of connection with people, places and events from all over the globe.

In the past few years it has become a norm for people from one country to travel to another country as a part of their education programme. As wonderful as it is to read about places and people who interest us, to experience a personal visit to these places and interact personally with these people allows us to understand and even appreciate their world in a more lasting and meaningful way. Our minds open up to new things, people, places and experiences. Very few ways allow for greater learning than travel. It is one of the best and most entertaining ways to get an education. While classes, books and internet sites are great ways to learn and build your knowledge base, travel takes what you have already learnt and expands upon it.

QUESTION

India is making strides in the field of technology. Technology has made life easier and more comfortable than it used to be earlier. At the same time people are turning to be more and more lazy and disease-prone. Write an article in 150-200 words on the disadvantages of too much of technology.

Disadvantages of Too Much Technology

By: ABC

India has made rapid strides in the technological field. Technology has made our life more easygoing and comfortable than ever before. But these comforts bestowed on us through technological advancements is doing us more harm than good. In the 21st century, technology has evolved to accommodate a more convenient lifestyle and meet every need that could possibly need fulfilling. With the right technology in your home, you might just never feel the need to even leave your bed. Our entire lifestyle has slowly but surely been completely taken over by technology. This is having an adverse effect on our well-being. We have become lazy and disease-prone.

Modern technology has given us everything we want, whenever we want and more than we actually need, with the result that we have become a weak society. Unlike the older generation, modern-day children do not have the space and freedom of moving about and end up cramped in front of their computers and video games. This sedentary style of living causes the child to be antisocial, thus making him socially weak. Also there is added risk of obesity from less locomotion. A sedentary lifestyle, coupled with wrong food habits, has made us prone to illnesses. Though technology has greatly contributed to human development, it has its flip side and it is adversely affecting our health.

Speech Writing

What is a speech?

A speech is a formal address or discourse delivered to an audience.

The speech is structured around a purpose.

It aims to convey that purpose with logically connected ideas, and provide sufficient supporting evidence to back that idea.

The speech must have three 'Cs' in it.

CLEAR: Speech must be clear, simple and easy to understand.

CONCISE: It should not be too long. Words should be at least 150 – 200.

COHERENT: Coherent means a speech must be logically ordered.

These three Cs must be present in a speech.

Format of Speech Writing

1. TITLE/ HEADING

First of all a speech is given a title that catches the attention of the audience.

2. CONTENT:

- Content is divided into three parts:
- Introduction
- Body conclusion
- Conclusion

Format of Speech Writing

1. Introduction: In introduction write what is theme all about.

Three things must be included while writing the introduction.

(i) Greeting and Personal introduction: Use words such as 'Respected sir/madam, dear students etc.'

(ii) Attention Grabber: Start the speech with such words that can grab the attention of the audience.

Use quotes/proverbs. e.g.

(iii) Introduce the topic: Write in brief the theme of the topic.

2. BODY:

In the body of the speech explain in detail what the topic is all about.

Three techniques can be used to shape the speech.

(i) Advantage vs. Disadvantage

(ii) Cause and effects

(iii) Problems and solution

3. CONCLUSION:

Conclude the speech by giving overall view or summary of the theme of the speech.

QUESTION

Write a speech in about 150-200 words to be delivered in school assembly highlighting the importance of cleanliness suggesting that the state of cleanliness reflects the character of its citizens.

ANSWER

Good Morning!

Respected teachers and my dear friends. Today, I, ^{ABC}~~Mohammad~~ of Class ^{XI}~~XII~~ of ^{ABC Public School}~~Alps Public School~~ am here to share my views on the topic, "Importance of Cleanliness". It has been rightly said that "Cleanliness is next to Godliness". The term cleanliness implies the absence of dust, dirt garbage or waste, etc. If one wants to be healthy and fit, a healthy environment is necessary. It is important for everyone's mind and body as well as spirits like water and oxygen. → *Introduction*

The dirty environment affects the health of the people. The state of cleanliness reflects the character of its citizens. We can take a live example of today when people travel in a metro train, they never litter their surroundings, but once they come out of that vicinity, they hardly care. This habit shows their character. If we keep our surroundings clean, it will help in the nation-building exercise too as it will attract more tourists in the country.

Awareness of the cleanliness is the need of the hour in our country where diseases like viral fever, swine flu, malaria, jaundice, etc. are spreading fastly. The awareness camps should be organised by the government, private organisations, and NGOs, and people to make the areas neat and clean. People in society and the community should organise rallies. The revolution of the 'Clean India Campaign' is progressively making us aware. We have to continue it by understanding the motto, "Importance and Necessity of Cleanliness".

QUESTION

Games and Sports should be made compulsory in schools. Write a speech for morning assembly on the 'Importance of Games and Sports in Personality Development' in about 150–200 words.

ANSWER

Good morning to one and all. Honourable Principal Sir, respected teachers and my dear friends. Today, I, Fatima would like to share my views on the topic, 'Importance of Games and Sports in Personality Development'.

Sports and Games play a great role in developing our physical fitness. Playing a sport is undoubtedly a fun activity. But did you know that regular sporting activities not only take care of our physical fitness but also enhance our personality and help in maintaining our mental well-being. To top it all, it's also a great source of entertainment!

It helps develop leadership qualities too and foster a sense of team spirit. Sports inculcate a sense of competition and help deal with success and failure with a positive spirit. Games and sports also help in the development of social skills. It teaches us to interact with people, communicate with them and collaborate as a team. It fosters collective thinking and harnesses your planning and delegation skills too. It is more joyful than sitting in front of a stationary computer and chatting. Sports make us active, agile and alert. So, don't just sit and chat during the games period. After all it has so many benefits for the body, mind and soul.

Thank you

QUESTION

Write a speech in 150–200 words on the topic, 'Library plays an important role at School'. It is to be delivered in the morning assembly.

ANSWER

Respected Principal Sir, teachers and my dear friends. Today, I, Kulsuma, stand before you to present my views on the importance of library at schools.

The school library is integral to the teaching and learning process. It facilitates the work of the classroom teacher and ensures that each student has equal access to resources, irrespective of home opportunities or constraints.

The modern trend in education is to encourage students to collect their own information from various sources. From this point of view, reading in a library itself is a part of school education. A library is indispensable for such modern methods of teaching as problem-solving method, project method, assignment methods supervised study, etc. Thus, a library is the hub of intellectual activity in a recognised school and plays the same part, for all subjects, as does a laboratory for science subjects, or a workshop for technical subjects.

Not only for academic purposes, for earnest readers, school library is a boon. In today's age, where the reading habit is dying fast, it helps in cultivating reading habits from a young age itself. Reading forms character of a person. What better place to start such a good habit, then our very own school library. Let us resolve to use our school library to the full, for that is what can make us not only intellectuals but also good individuals.

Thank you

QUESTION

On the eve of Annual Day Celebration, your school held a 'Blood Camp' in collaboration with the medical college. Write a report of the event for the local newspaper.

Blood Donation Camp Held in School

By

01 August 2026

On the eve of the Annual Day Celebration, a Blood Donation Camp was organized in our school on 10th ~~November~~^{August} 2026 in collaboration with the City Medical College. The event aimed to spread awareness about the importance of donating blood and helping those in need.

A team of doctors and nurses from the medical college set up the camp in the school auditorium. Many teachers, parents, and senior students came forward to donate blood voluntarily. The medical staff conducted proper health check-ups before each donation to ensure safety. Refreshments were provided to all donors after the process.

The Principal appreciated the joint effort of the school and medical college and thanked everyone for their participation. The event was a great success and inspired students to take part in such social causes in the future.

QUESTION

As a reporter with Rising Kashmir, write a report on the increasing menace of corruption in Jammu and kashmir.

Increasing Menace of Corruption in Jammu and Kashmir

By: ,ABC, Staff Reporter, Rising Kashmir

~~16 November 2025~~

01 August 2026

Corruption has become one of the most serious problems in Jammu and Kashmir today. It is spreading fast in almost every department and has deeply affected the progress of the state. From government offices to public services, bribery and misuse of power have become common.

People often face great difficulty in getting their work done without paying extra money. This has weakened public faith in the system and slowed down development works. Despite several laws and anti-corruption drives, the results are not very encouraging.

Experts believe that strict action against corrupt officials, transparency in work, and public awareness are needed to curb this menace. Honest officers and active citizens can play a major role in making Jammu and Kashmir free from corruption.

QUESTION

As a reporter with Greater Kashmir write a report on the, increasing menace of drug abuse in Jammu and Kashmir.

Increasing Menace of Drug Abuse in Jammu and Kashmir

By: ABC, Staff Reporter, Greater Kashmir

16 November 2025

Drug abuse has become a growing menace in Jammu and Kashmir, especially among the youth. In recent years, the number of drug addicts has risen sharply, causing serious concern for families and society. Easy availability of drugs and peer pressure are among the main reasons behind this alarming situation.

Health experts warn that drug addiction is destroying the lives of many young people and leading to crimes, mental health issues, and social problems. The police and social organizations are working hard to control the supply of drugs and spread awareness about their harmful effects.

There is an urgent need for strict action, proper counseling, and public awareness campaigns to save the young generation from this deadly trap and ensure a healthy future for Jammu and Kashmir.

QUESTION

Your state government has banned the use of plastic bags. You are Amarjeet, a reporter of The National Herald. Write a report in 100–125 words on how the ban is being ignored and what damage the indiscriminate use of plastic bags is causing to the environment.

Environment Unfriendly Polybags

By: Amarjeet, Staff Reporter

The National Herald

In the year 2002 the government had banned the production and use of plastic bags in our country. But unfortunately, these are now being widely used again everywhere. Not only are we using a huge number of polybags daily but we are also discarding them in our drains uncaring about the fact that they will block the flow of drain water. Polybags are also a threat to our environment. They cause pollution, kill wildlife and are responsible for using up the natural resources of the earth. They are one of the main factors that litter the landscape. If burnt, they will infuse the surrounding air with toxic fumes.

The main problem of plastic bags is that they are non-biodegradable. The decomposition of plastic takes around a thousand years, so with the plastic rubbish produced each day it is likely that this problem will never be solved. While the government works out ways to lessen the impact of polybags on the environment each one of us too should shoulder some responsibility for this problem that ultimately harms us all.

Debate Writing

Debate writing is a form of writing where you argue either for or against a given motion (statement or topic), using facts, logic, and examples to support your viewpoint.

Main Features of Debate Writing:

- 1. Topic/Motion:** The statement on which the debate is based.
(e.g., “Social media has done more harm than good.”)
- 2. Two Sides:** For the motion (Agreeing)
Against the motion (Disagreeing)
- 3. Formal Tone:** Use a respectful and logical tone, even when opposing.

SOCIAL MEDIA AND IT'S EFFECTS

“We are all now connected by the internet, like neurons in a giant brain”

Honourable judges, teachers and my worthy opponents thank you for giving me the opportunity to join this debate on the topic, “Social Media and It's Effects”. I am Mohammad/Saniya and I would like to speak in favour of the motion.

How many people do not have a smile on their faces on finding an old friend on Facebook? Well, social media has removed all the barriers and boundaries to communication by bringing the globe on a single platform. While business opportunities have widened, marketer's reach has broadened. It keeps us updated about everything going on in every nook and corner of the world on a real-time basis.

From emergency alerts, announcements and declarations to knowing how our friends are doing has all become so convenient. It provides freedom of speech and thus, enables everyone to speak their mind. Not to forget the incalculable access it provides to the extensive information.

With so much advancement and innovation, it would be an unimaginable world without having social media in it. Someone has rightly put it into words by saying,

“Social media is addictive precisely because it gives us something that the real world lacks: it gives us immediacy, direction and a value as an individual.”

Thank you.

QUESTION

‘Homes for the aged is a necessity in India’. Write a debate in 120–150 words either for or against the motion. You are Sakeena/Shahid.

HOMES FOR THE AGED IS A NECESSITY IN INDIA

Old age is often referred to as the crown of life, as it is our play's last act. Honourable judges, teachers and my worthy opponents, I thank you all for providing me the opportunity to highlight the importance of Old Age Homes in India.

An old age home is a place, a home for old people who have no one to look after them or those whose children have left them on the streets. The place, of course, is like home where the inmates get all the facilities for a routine living, like food, clothing, medicine and shelter. Old age brings with it physical weakness. In case they are alone at home while you're away, it would be almost impossible to tackle any medical emergency. These centres will take care of them and cater to all such emergencies

Also, burglars usually attempt to break into a house where a lonely aged person lives, murder them without hesitating and loot the house. That's why it is safer to keep your parents in a senior-care-home when you have to stay away from them for your earning and are unable to keep them there with you.

Thus, it is crucial to have Old age homes in the country because old age needs so little but needs that little very much. Nothing is more important than a smile that has struggled through tears and many years.

Thank you.

QUESTION

Internet is rapidly affecting our daily routines, lives and professions. Write a personal account of how the use of internet has affected you as a person.

How the Internet Has Changed My Life

The Internet has become an inseparable part of my daily life. It has completely changed the way I study, communicate, and even think. Earlier, I used to depend on books, teachers, and newspapers for information. But now, with just a few clicks, I can access knowledge from around the world. It has made learning easier and faster.

Socially, the Internet has helped me stay connected with my friends and relatives who live far away. Through social media, video calls, and messaging apps, I can share moments, ideas, and experiences instantly. It has also helped me become more confident in expressing my thoughts online.

However, I have also realized that spending too much time on the Internet can be distracting. Sometimes, I waste hours scrolling through unnecessary content. So, I have learned to use it wisely and limit my screen time.

Overall, the Internet has made me more informed, creative, and aware of the world. It has opened countless opportunities for learning and growth, and I cannot imagine my life without it now.

QUESTION

Use of mobile phones has touched an all time high in present times. It has affected lives of young and old. Write a personal account of how the mobile phone has affected you as a person.

How the Mobile Phone Has Affected My Life

The mobile phone has become an essential part of my life. It is no longer just a device for making calls; it is my camera, diary, clock, and even my classroom. It has made communication easier and faster. I can talk to my friends and family anytime, no matter where they are.

As a student, my mobile phone has helped me a lot in my studies. I use it to search for information, attend online classes, and watch educational videos. It keeps me updated with the latest news and developments.

However, I must admit that the mobile phone has also made me a little dependent. Sometimes, I spend more time on social media or games than I should. It affects my concentration and sleep. I am now trying to manage my time better and use my phone mainly for useful purposes.

Overall, the mobile phone has both positive and negative effects on me. It has made my life easier, more connected, and more informed—but it has also taught me the importance of self-control and balance in using technology.

QUESTION

You were sitting in your room. You heard a shriek. When you ran out of the room, you found a car had hit a man and the driver had run away. Narrate your experience.

AN ACCIDENT ON A DARK WINTRY NIGHT

It was a quiet, cold and dark night, like it usually is in winters when all retire to bed early. Suddenly, a shriek jerked the people in the building out of their beds. It was distinctly the voice of someone who was in deep pain. I at once got up and looked down the window of my room. A lot of people had gathered in the street below. I ran down the building to know what had happened. A man had been run over by a speeding car and the driver had run away with his car. Both the legs of the man had been broken and he was bleeding badly. I had my mobile with me and rang up the police and also the Civil Hospital for ambulance. The man was taken to the hospital and a case of 'hit and run' was registered with the police.
