

BAAZ & UDAY JKBOSE

2026 CLASS 11TH

CHEMICAL COORDINATION & INTEGRATION

LECTURE-01

ZOOLOGY

DAVOOD SIR (CEO of NG)

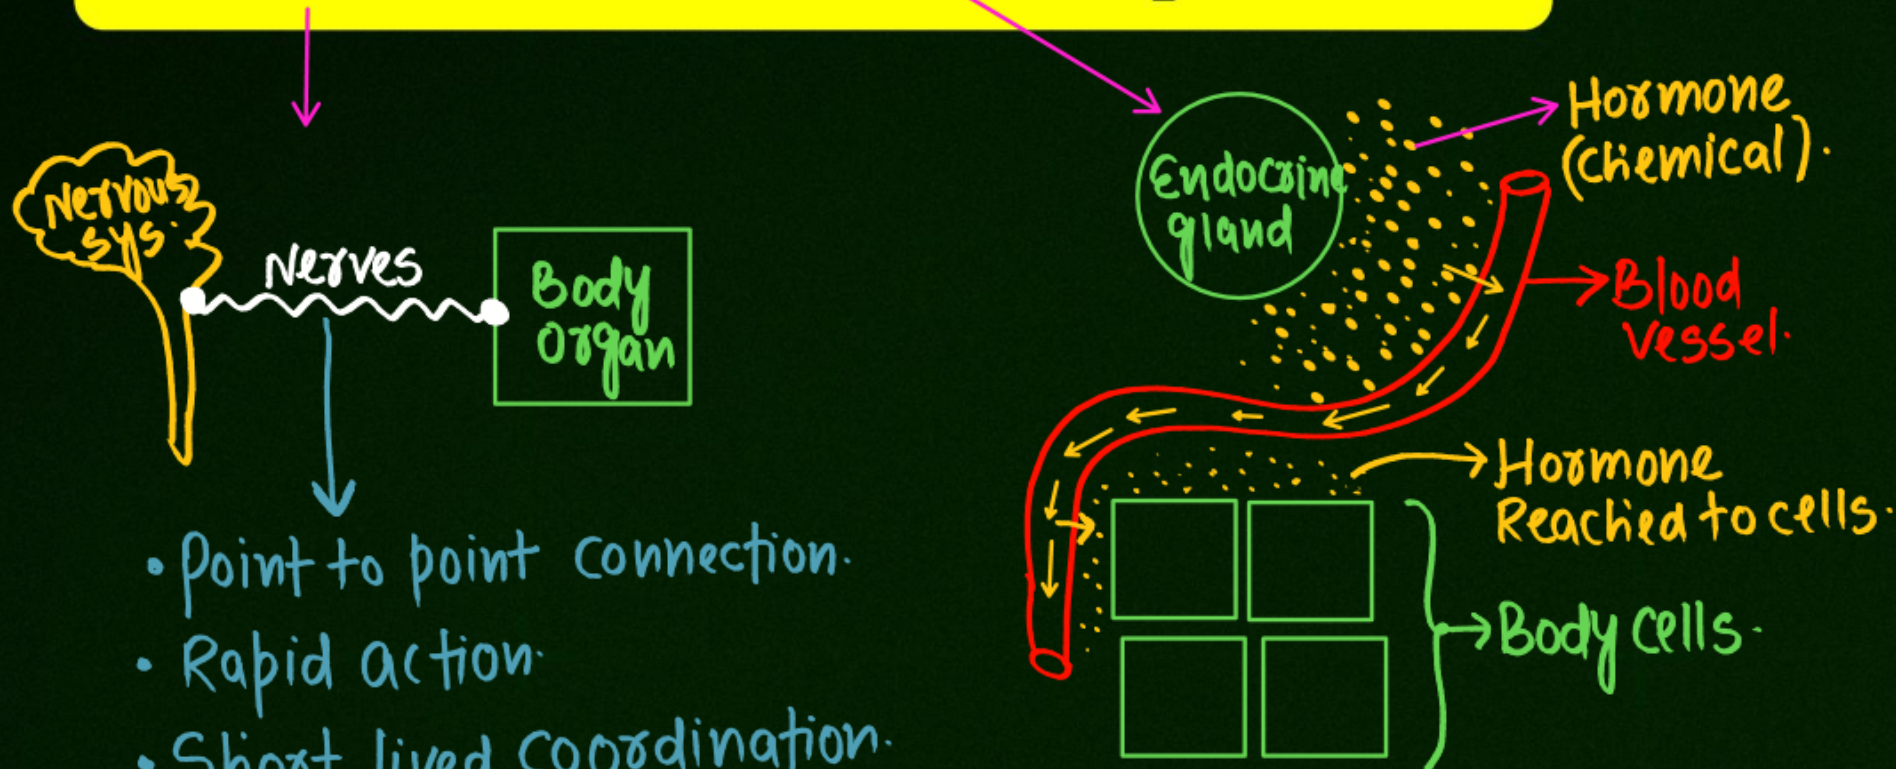

Physics Wallah

Topics To Be Covered

- 1** **NEUROENDOCRINE SYSTEM.**
- 2** **HUMAN ENDOCRINE SYSTEM.**
- 3** **PREVIOUS & CURRENT YEAR NEET MCQ's**

Neuro-Endocrine System

- Point to point connection.
- Rapid action.
- Short lived coordination.
- Not all cells are innervated by Nerve fibres.

- Cellular functions require continuous regulation which is performed by Endocrine system.
- Slow action.
- Long lived coordination.

• Both Neural and Endocrine system coordinate and regulate body function together.

Endocrine gland

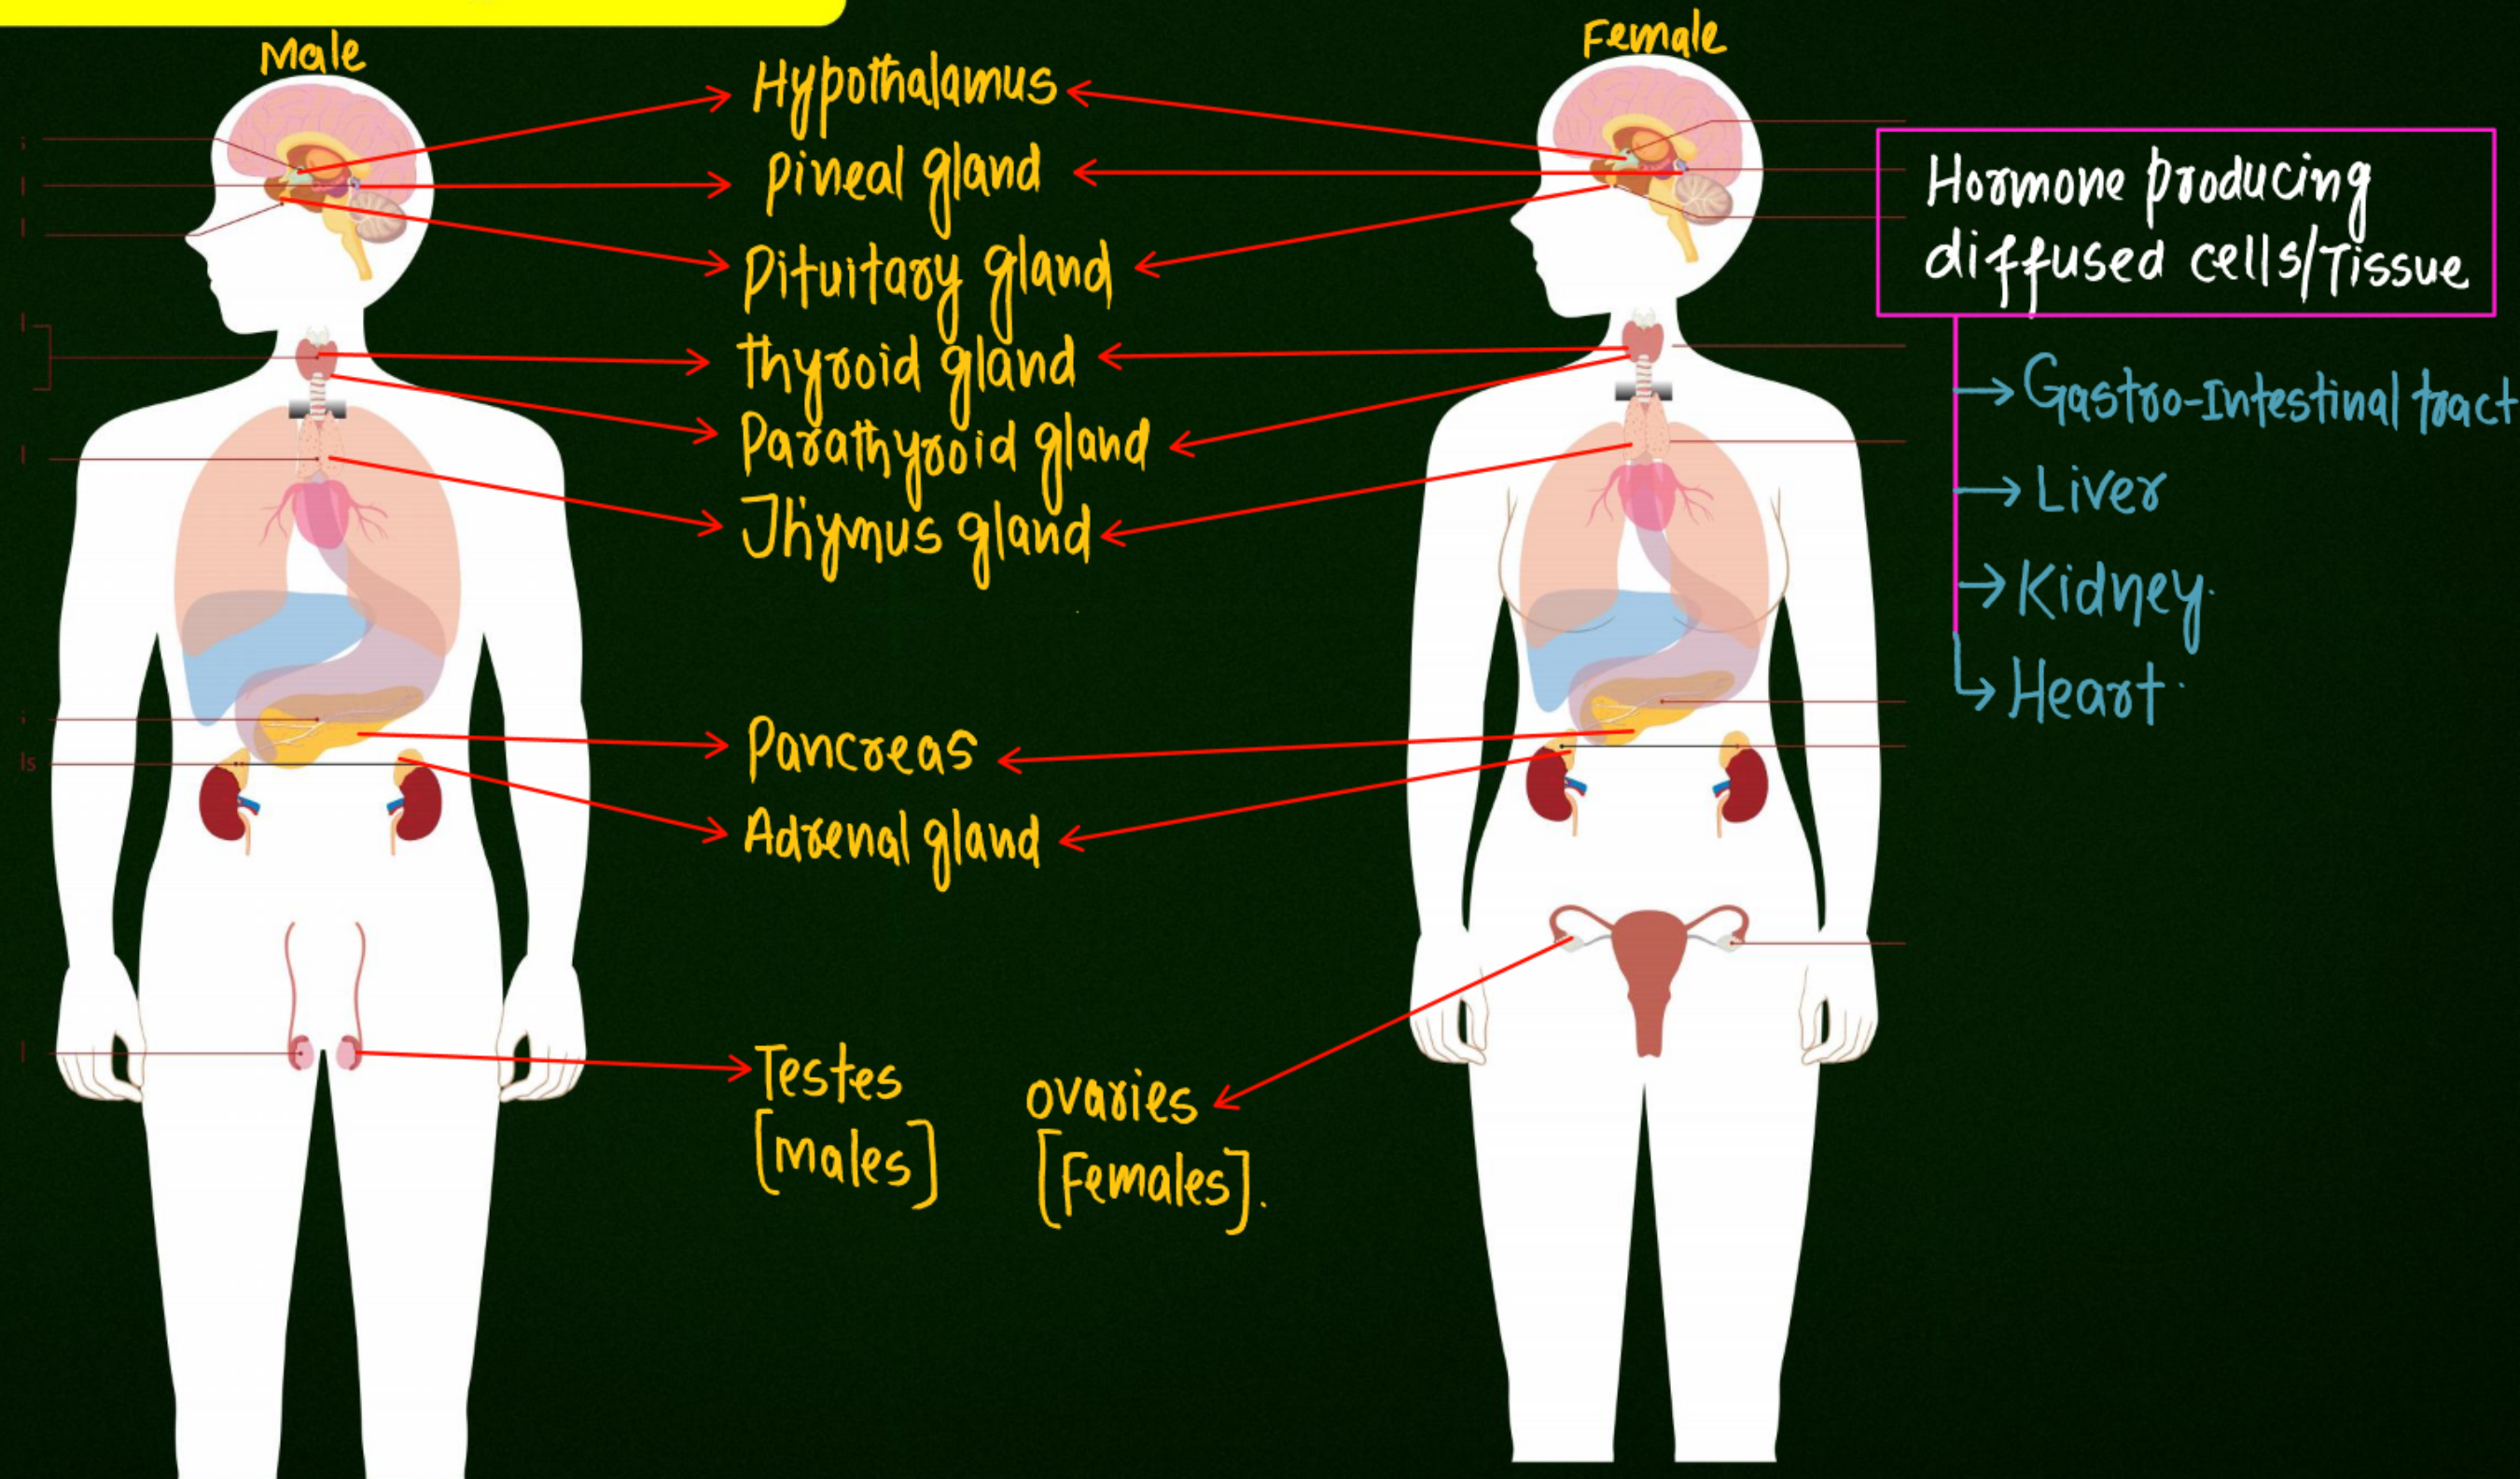

- they are ductless glands which secrete a chemical called Hormone and pour direct into blood vessel.

Hormone

- Hormone is a chemical substance acts as a chemical messenger. Secreted from endocrine glands and acts on cells.
- It is secreted in trace amounts.
- It is a non-nutritive substance.

- Invertebrates have Simple endocrine system
- Vertebrates have complex endocrine system.

Human Endocrine System
